

Yuezhou (Angelica) Sun

Jersey City, NJ | (530) 551-5042 | angelica.yz.sun@gmail.com | [LinkedIn](#) | [Portfolio](#)

RESEARCH INTERESTS

- **Primary:** Human-Centric AI, Natural Language Processing, Data Attribution.
- **Secondary:** Computational Cognitive Modeling, Human-AI Interaction, Information Visualization, Digital Literacy.

EDUCATION

Stanford University

2020 - 2022

M.S. in Computer Science (Artificial Intelligence Track)

Teaching Assistantship: Fully funded via TA positions for core AI/NLP curriculum.

University of California, San Diego

2016 - 2020

B.S. in Computer Science & B.S. in Cognitive Science

Honors: Magna Cum Laude, Departmental Distinction (Cognitive Science).

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co.

2023 - Present

Software Engineer III

- **Hybrid-Environment Debugging:** Technical owner of a 50k+ LoC mortgage data system. Specialized in **root-cause analysis** across a multi-language stack (Python, C++, Perl, Java), identifying critical failure points in legacy logic to resolve chronic data discrepancies.
- **System Modernization:** Executed the **technical migration** of core components from **Python 2 to 3** and ported legacy C modules to **C++**. Facilitated the transition of infrastructure from local Sybase instances to cloud-hosted **AWS Aurora PostgreSQL**.
- **Internal Collaboration:** Coordinate closely with Quantitative Research and trading desks to troubleshoot production issues. Partner with cross-functional developer teams to refine data models and maintain internal system architecture.
- **Mentorship & Leadership:** Mentored junior developers and interns on production deployment best practices and system architecture, fostering a culture of rigorous code review and documentation.
- **Domain Synthesis:** Passed **CFA Level I** to ensure software implementation alignment with the theoretical requirements of researchers and stakeholders.

RESEARCH EXPERIENCE

Architecture-Agnostic Neural Network Compression [↗](#)

2021 - 2022

STANFORD UNIVERSITY | ADVISOR: DR. MATEI ZAHARIA

Developed a compression pipeline leveraging **additive quantization** and Huffman coding, achieving up to 7.2x compression of ResNet-50 on ImageNet without significant accuracy loss.

Honor Thesis: Dictionary Interface for Neural Word Segmentation [↗](#)

2019 - 2020

UC SAN DIEGO | ADVISORS: DR. ZHUOWEN TU, DR. BENJAMIN BERGEN

Designed an **embedding method** to inject **symbolic lexicon knowledge** into neural networks, mitigating the need to retrain models on novel text domains.

RESEARCH EXPERIENCE (CONT.)

Machine Learning, Perception & Cognition Lab2018 - 2020

UC SAN DIEGO | DR. ZHUOWEN TU

Contributed to deep learning algorithms for language modeling, wireframe detection, and single-image 3D reconstruction.

Language Cognition Lab2018 - 2019

UC SAN DIEGO | DR. BENJAMIN BERGEN

Assisted in designing and running behavioral experiments to analyze human language processing mechanisms.

TEACHING EXPERIENCE

Stanford University2020 - 2022

Graduate Teaching Assistant

- CS 229 Machine Learning (Andrew Ng)
- CS 224N Natural Language Processing (Christopher Manning)
- CS 124 From Language to Information (Dan Jurafsky)

Academic PI2021 - 2022

AP Computer Science Instructor

Java, Object-Oriented Programming, and Algorithms

UC San Diego2018

Undergraduate Teaching Apprentice

COGS 1 Intro to Cognitive Science (Mary Boyle)

TECHNICAL & CREATIVE SKILLS

- LANGUAGES:

Python (7+ yrs), C/C++, Java, SQL, Bash, Perl.
- CLOUD & WEB:

AWS (Lambda, Aurora, S3, EC2), Flask, Linux/Unix, Git, Jenkins.
- AI & ML:

PyTorch, TensorFlow, HuggingFace, Scikit-learn, NumPy.
- CREATIVE:

Creative Writing, Image Editing, Video Editing, Game Dev, Neuroscience, Linguistics.
